

ZoomInfo Highlights Investment in Terminal One Revitalization with New Vancouver Office Opening

July 16, 2025

City's premier waterfront district demonstrates the power of innovation and public-private partnership

VANCOUVER, Wash.--(BUSINESS WIRE)--Jul. 16, 2025-- ZoomInfo (NASDAQ: GTM), the Go-To-Market Intelligence Platform, today announced the official opening of its new Vancouver office at Terminal One — marking a key milestone in the company's 18-year history and underscoring the power of public-private partnership in revitalizing the 10-acre historic port site.

Positioned in the heart of the Vancouver Waterfront, Terminal One features sweeping riverfront views and amenities such as deck space, a state-of-the-art fitness center, secure parking and an 80+ seat conference center. In addition, the Terminal One riverfront boasts a hotel, public trails and spaces, and a marketplace, making it an ideal area for business or leisure.

ZoomInfo is the first business to move into the newly developed waterfront space, which serves as a strategic hub for the company's growing engineering, product, and go-to-market teams. As part of the opening events, ZoomInfo will be showcasing the benefits of the mixed-use space and supporting its neighbors by encouraging employees to explore retail shops and highlighting local restaurants with catered events throughout the week.

"We know the power of being together in person, and we're confident that this new office at the Port of Vancouver is a place where our team will enjoy engaging with our clients and building our team," said Henry Schuck, Founder and CEO of ZoomInfo. "This incredible space offers our employees a beautiful place to work and enjoy everything the city has to offer. We started this business here, we scaled it here, and we'll continue building the future of the company here."
