The Company uses a variety of operational and financial metrics, including non-GAAP financial measures, to evaluate its performance and financial condition. The accompanying financial data includes additional information regarding these metrics and a reconciliation of non-GAAP financial information for historical periods to the most directly comparable GAAP financial measure. The presentation of non-GAAP financial information should not be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP.

#### Business Outlook:

#### Non-GAAP Financial Measures and Other Metrics:

To supplement our consolidated financial statements presented in accordance with GAAP, this press release contains non-GAAP financial measures, including Adjusted Operating Income, Adjusted Operating Income Margin, Adjusted Net Income, Adjusted Net Income Per Share, and Unlevered Free Cash Flow. We believe these non-GAAP measures are useful to investors in evaluating our operating performance because they eliminate certain items that affect period-over-period comparability and provide consistency with past financial performance and additional information about our underlying results and trends by excluding certain items that may not be indicative of our business, results of operations, or outlook.

Non-GAAP financial measures are not meant to be considered in isolation or as a substitute for the comparable GAAP measures, but rather as supplemental information to our business results. This information should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. There are limitations to these non-GAAP financial measures because they are not prepared in accordance with GAAP and may not be comparable to similarly titled measures of other companies due to potential differences in methods of calculation and items or events being adjusted. In addition, other companies may use different measures to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial measures as tools for comparison. A reconciliation is provided at the end of this press release for each historical non-GAAP financial measure to the most directly comparable financial measure stated in accordance with GAAP. We do not provide a quantitative reconciliation of the forward-looking non-GAAP financial measures included in this press release to the most directly comparable GAAP measures due to the high variability and difficulty to predict certain items excluded from these non-GAAP financial measures; in particular, the effects of stock-based compensation expense, taxes and amounts under the exchange tax receivable agreement, deferred tax assets and deferred tax liabilities, and restructuring and transaction expenses. We expect the variability of these excluded items may have a significant, and potentially unpredictable, impact on our future GAAP financial results.

We define Adjusted Operating Income as income from operations plus (i) impact of fair value adjustments to acquired unearned revenue, (ii) amortization of acquired technology and other acquired intangibles, (iii) equity-based compensation expense, (iv) restructuring and transaction-related expenses, and (v) integration costs and acquisition-related compensation. We define Adjusted Operating Income Margin as Adjusted Operating Income divided by the sum of revenue and the impact of fair value adjustments to acquired unearned revenue.

We define Adjusted Net Income as Adjusted Operating Income less (i) interest expense, net, (ii) other (income) expense, net, excluding TRA liability remeasurement expense (benefit), and (iii) income tax expense (benefit) including incremental tax effects of adjustments to arrive at Adjusted Operating Income and current tax benefits related to the TRA. We define Adjusted Net Income Per Share as Adjusted Net Income divided by diluted weighted average shares outstanding.

We define Unlevered Free Cash Flow as net cash provided from operating activities less (i) purchases of property and equipment and other assets, plus (ii) cash interest expense, (iii) cash payments related to restructuring and transaction-related expenses, and (iv) cash payments related to integration costs and acquisition-related compensation. Unlevered Free Cash Flow does not represent residual cash flow available for discretionary expenditures since, among other things, we have mandatory debt service requirements.

#### Cautionary Statement Regarding Forward-Looking Information

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those expressed or implied by these statements. You can generally identify our forward-looking statements by the words "anticipate," "believe," "can," "continue," "could," "estimate," "expect," "forecast," "goal," "intend," "may," "might," "objective," "outlook," "plan," "potential," "predict," "projection," "seek," "should," "target," "trend," "will," "would" or the negative version of these words or other comparable words. Any statements in this press release regarding future revenue, earnings, margins, financial performance, cash flow, liquidity or results of operations (including, but not limited to, the guidance provided under "Business Outlook"), and any other statements that are not historical facts are forward-

looking statements. We have based our forward-looking statements on our management's beliefs and assumptions based on information available to our management at the time the statements are made. We caution you that assumptions, beliefs, expectations, intentions and projections about future events may and often do vary materially from actual results. Therefore, we cannot assure you that actual results will not differ materially from those expressed or implied by our forward-looking statements.

The following are some of the factors that could cause actual results to differ from those expressed or implied by our forward-looking statements: (i) the COVID-19 pandemic, including the global economic uncertainty and measures taken in response, could materially impact our business and future results of operations; (ii) larger well-funded companies shifting their existing business models to become more competitive with us; (iii) our ability to provide or adapt our platform for changes in laws and regulations or public perception, or changes in the enforcement of such laws, relating to data privacy; (iv) the effects of companies more effectively catering to our customers by offering more tailored products or platforms at lower costs; (v) adverse general economic and market conditions reducing spending on sales and marketing; (vi) the effects of declining demand for sales and marketing subscription platforms; (vii) our ability to improve our technology and keep up with new processes for data collection, organization, and cleansing; (viii) our ability to provide a highly accurate, reliable, and comprehensive platform moving forward; (ix) our reliance on third-party systems that we do not control to integrate with our system and our potential inability to continue to support integration; (x) our ability to adequately fund research and development potentially limiting introduction of new features, integrations, and enhancements; (xi) our ability to attract new customers and expand existing subscriptions; (xii) a decrease in participation in our contributory network or increased opt-out rates impacting the depth, breadth, and accuracy of our platform; (xiii) our failure to protect and maintain our brand and our ability to attract and retain customers; (xiv) our failure to achieve and maintain effective internal controls over financial reporting; (xv) our ability to successfully integrate acquired businesses, services, databases and technologies into our operations; (xvi) our ability to successfully forecast the future performance of acquired businesses, services, databases and technologies upon integration; (xvii) our substantial indebtedness, which could adversely affect our financial condition, our ability to raise additional capital to fund our operations, our ability to operate our business, our ability to react to changes in the economy or our industry, and our ability to meet our obligations under our outstanding indebtedness, and could divert our cash flow from operations for debt payments; (xviii) the parties to our stockholders agreement controlling us and their interests conflicting with ours or our other stockholders in the future; (xix) our being a "controlled company" within the meaning of the Nasdaq rules and, as a result, qualifying for exemptions from certain corporate governance requirements, as a result of which our stockholders will not have the same protections afforded to stockholders of companies that are subject to such requirements; and (xx) other factors described under "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2020 and in other reports we file from time to time with the SEC. These factors should not be construed as exhaustive. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, our actual results may differ materially from those projected in our forward-looking statements. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures, investments, or other strategic transactions we may make. Each forward-looking statement contained in this presentation speaks only as of the date of this presentation, and we undertake no obligation to update or revise any forward-looking statements whether as a result of new information, future developments or otherwise, except as required by law.

1. Diluted earnings per share is computed by giving effect to all potential weighted average Class A common stock, Class C common stock, and any securities that are convertible into Class A common stock, including options and restricted stock units. The dilutive effect of outstanding awards and convertible securities is reflected in diluted earnings per share by application of the treasury stock method, excluding deemed repurchases assuming proceeds from unrecognized compensation as required by GAAP. Shares and grants issued in conjunction with the IPO were assumed to be issued at the beginning of the period.
