

ZOOMINFO TECHNOLOGIES INC.

California AB 1305 Disclosure

This information has been prepared and is provided for the sole purpose of disclosure under Section 44475 of Division 26 of the California Health and Safety Code (“AB 1305”) and is not intended, nor can it be relied on, to create legal relations, rights, or obligations. By posting information on its website, ZoomInfo Technologies Inc., including its subsidiaries and affiliates (collectively, “ZoomInfo,” the “company,” or “we”), is not conceding that any specific item is required to be disclosed by ZoomInfo nor waiving any arguments about the interpretation of AB 1305. This information is subject to change without notice.

Section 44475.1 information:

The company purchases voluntary carbon offsets as part of its efforts to achieve carbon neutrality targets. The information in the table below represents details related to the carbon offsets the company has purchased since 2022.

Seller/Project Name	Project Type	Project ID	Credit Period	Credit Type	Protocol/Methodology	Third-Party Certification
Orange Renewable Power Pvt Ltd Wind Power Project in Madhya Pradesh, India	Renewable Energy	4962	May 5, 2023 — May 4, 2030	Removal	ACM0002 Grid-connected electricity generation from renewable sources	Gold Standard Certified Project

Section 44475.2 information

ZoomInfo has set targets, and reports on its progress, toward achieving carbon neutrality, sourcing renewable energy, and offsetting any remaining carbon balance. Information on these targets and interim progress towards them can be found in the company's annual Sustainability Report at <https://ir.zoominfo.com/sustainability>. The company seeks to calculate its emission intensity by working with the company's landlords to understand the electricity consumption at the office facilities where its employees are based. The company then uses actual and estimated energy consumption for certain time periods as available. Next, the company applies a factor based on location to further estimate the carbon intensity and calculate a Net MTCO_{2e}

value. The company undertakes these calculations internally and does not utilize an independent third party to verify them.
